

Welcome to

EUROLATON[®]

world.

COMPANY

Nature, Architecture, Expression of Art.

Door handles, serve as bridges for communications between human and buildings.

EUROLATON Spain is a professional manufacturer of door handles and hardware.

Eurolaton product designs not only take the fullest expression of nature and art, but ergonomics into consideration. That will help your hand feeling to achieve the best condition. Eurolaton products, made of solid forged brass, combined with automatic processing technology and traditional craftsmanship, have nearly 40 finishes supported by innovation surface technology, and help the users have more high quality choices.

Because of the original production of industrial design, mold development and precision machining, more and more architects, interior designers and users all like Eurolaton's advanced customized services. We not only always make the brand of Eurolaton be more popular but also keep trying in recycling and environmental technology.

DESIGN

Eurolaton product design is heart-to-heart by the Spanish designers. It comes from the understanding of the nature and architecture for humanity, and learns its essence. Besides, it not only takes the fullest expression of art, but ergonomics into consideration. That will help your hand feeling to achieve the best condition.

From inspiration devised to concept sketches to 3D rendering, our designers use advanced technology to realize all kinds of wonderful ideas.

CRAFT

We are proud that all products are manufactured in our own factory, in compliance with the most recent European standards on the quality of the raw materials used, the technical characteristics and the resistance of surface treatments. From the traditional casting to advanced forging, the manual polishing to intelligent polishing equipment, from a single paint coating processing to more than 30 finishes, we always challenge a new height in this professional field.

CUSTOM

Eurolaton will meticulously design the exclusive products according to the users' needs. Make the products, your buildings and home decorating design more fit. Eurolaton more than 30 finishes and creative designs. Help you create your exclusive art.

Eurolaton products you choose have many colors other than the ones in the catalogue. You can choose your favorite color in our more than 30 kinds of finishes.

According to your requirements, Eurolaton designers can change the specification and appearance of the products in the catalogue, even can design your exclusive products.

ENVIRONMENT

To believe that a company doesn't just produce objects but respect the people and the surrounding environment. We adopt an environmentally responsible behavior to reduce wastage and improve the quality of life in the workplace.

We strictly control the amount of waste materials and rubbish and recycle 90% of metal waste during the production processes. Our electroplating lines adopt advanced equipment in order to reduce the usage of water resources and we use waste-water treatment system in accordance with the state environmental protection standards. Our packaging also uses water-based inks and renewable materials, which prevents waste of social resources from the excessive packaging.

DOOR HANDLE LOCKS SYSTEM

Eurolaton door handle locks system products designed in American country style, European classical style and modern style, according to American standard and European standard. All of the handles can be crafted with various distinctive finishes, and be suitable for high-end residential and commercial places.

AMERICAN FEDERAL STYLE

American federal style gives up the novelty and pomp that the baroque chases. It is based on a new understanding of classical, and emphasizes on advocating natural. Rugged elegant appearance molding adheres to the pursuit of perfect details. Simple style reveals nobility.

LIFESTONE

Styled in American

The strength from the stone and the vitality of the leaf melted together after centuries of coexistence. A stone with character found in the most successful paleontology expeditions.
